PROFILE

Highly motivated self taught web developer, irreversibly addicted to newly discovered world of programming. As a former pro athlete, gained great experience in collaborating in groups and playing different roles. Eager to start new career in an attractive and challenging web development industry.

EMPLOYMENT HISTORY

Professional basketball player

1996 — 2014

- Professional basketball player, in many teams and many countries.
- European champion with U 16 national team of Yugoslavia in Belgium, 1997.
- In 2010 acquired professional title of basketball coach

Phase II Basketball Logger , Synergy Sports Technology

2015 — Present

- from 2015 I work at Synergy Sports Technology, an American based company that provides high quality, advanced basketball statistic, game and players analyses
- my current position is Phase II Logger, with responsibilities to recognize and organize above mentioned basketball information, and not related to web development.
